American Academy of Nursing Announces the 2023 Class of New Fellows
Academy to Induct Over 250 Nurse Leaders in Its 50th Anniversary Year

June 28, 2023 (Washington, DC) — The American Academy of Nursing (Academy) announces today that it will induct 253 distinguished nurse leaders into the 2023 Class of Fellows. The inductees will be recognized for their substantial, sustained, and outstanding impact on health and health care at the Academy's annual Health Policy Conference, taking place on October 5 – 7, 2023 in Washington, DC. This year's conference theme is *"Celebrating 50 Years of Leadership, Policy, and Partnership."*

The newest Fellows, and largest class, represent 40 states, the District of Columbia, and 13 countries. In welcoming these Fellows, the Academy will be comprised of more than 3,000 leaders who are experts in policy, research, administration, practice, and academia that champion health and wellness, locally and globally.

"As the American Academy of Nursing's President, it gives me great pride to welcome these incredible leaders into our organization during our 50th anniversary year. Reflecting on the Academy's history, we began with 36 Charter Fellows in 1973 who saw the need for an organization that would recognize and elevate the impact of nursing on health care," said Kenneth R. White, PhD, RN, AGACNP, ACHPN, FACHE, FAAN. "The Academy continues to convene and celebrate nurses who make extraordinary contributions to improve health through the generation, synthesis, and dissemination of nursing knowledge. This year's group of inductees truly represents today's thought leaders and the diversity of our profession's policy leaders, practitioners, educators, and innovators. Each Fellow of the Academy is changing the future of health and health care through their support to advance equity, promote inclusion, and lift up the next generation of nurses, advancing the Academy's vision of healthy lives for all people."

The 2023 Class of Fellows represent nursing's positive impact through representation in a variety of roles and settings from governmental positions to executive and entrepreneurial leadership in practice, non-profits, and academia. Through a rigorous and competitive application process, the Academy's Fellow Selection Committee, which is comprised of elected and appointed Fellows, reviewed nearly 400 applications, ultimately selecting the 2023 Fellows based on their contributions to advance the public's health. Induction into the Academy is a significant milestone in which past and current accomplishments are honored by their colleagues within and outside the profession.

The Academy is thrilled to host the Induction Ceremony and Soiree on the evening of Saturday, October 7, 2023. The program will feature short, personalized videos from each inductee on the impact they have made to advance health. This event is a special tribute to nursing leadership, research, and innovation where colleagues, family, friends, and sponsors can gather together in Washington, DC to celebrate the power of nursing's impact. Learn more about the Academy and visit the policy conference website for more details.
